DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 & 2 are rejected under 35 U.S.C. 102(b) as being anticipated by GB 110,378 (Edward Charles Robert Marks). The patent application GB 110,378 discloses a modular type refrigeration apparatus comprising: a compress (13) with motor, a condenser coil (20) with a fan and both surround by a wire like caged frame. A dividing base mounted with the said caged frame and separates the compressor/condenser from an evaporator coil/expansion coil that is situated at an opposite end (see figure 5). Furthermore the apparatus is capable of being grip at the top of the cage to provide means for moving.

Allowable Subject Matter

Claims 3-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed 03/12/2009 have been fully considered but they are not persuasive. Applicant states that Marks prior art doesn't teach or suggest a condenser coils not being a wire frame support nor the horizontal loops of the condenser coils are not a wire-frame support. This stated feature/limitation is not positive claimed by applicant in claim 1.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
